
WELCOME TO THE ACADEMY

www.globalacademix.com

The Academy was conceptualized to address the real needs of the education system. We started from the very root of why we need education, and compared that with what our children actually experience as education. We are trying to bridge that gap, provide a new perspective and meaning to what education should be, to actually achieve the aims of education. We address the needs of the 4 main stakeholders in the system: the student, the parent, the teacher and the school.

THE ACADEMY FOR STUDENTS

In special response to the currently prevailing conditions of COVID19, we have created a methodology to help students cope with the changing scenario.

THE MAJOR CONCERNS

- Restricted school timings due to prevailing situation.
- Schools scrambling to cover the prescribed syllabus.
- All learners not receiving the appropriate attention and guidance during and after school hours
- Lack of proper reinforcement of learned concepts in the absence of guided practice

SO, WHAT IS THE SOLUTION?

**WHAT SUPPORT CAN BE
PROVIDE TO STUDENTS AND
PARENTS?**

WHAT WE OFFER...

- Concept based learning, adapted to boards and syllabi
- Content aligned to the curriculum
- Learner-friendly Methodology
- Synchronous and asynchronous learning
- Tools to facilitate learning
- Worksheets and practice questions based on Bloom's levels of cognition
- Clear, concise, timely feedback
- Assessment of level of achievement, with feedback about further course of action
- Limited batch size, personal attention, highly qualified and dedicated teachers

HOW STUDENTS BENEFIT

Content and Concept Mastery

- Live and recorded lectures
- Note taking and summarizing skill development
- Worksheets for reinforcement
- Assessment and Personalized feedback
- Further enrichment resources
- Right mix of online and offline resources with activities relevant to real-life

Developing 21st Century Skills

- Critical Thinking
- Creativity and Organization
- Communication and Team working
- Leadership
- Self-Motivation
- Self Reflection – Ipsative Assessments

Learning becomes fun

- Students look forward to assignments
- Students get a platform to share thoughts and express themselves
- Safe and nurturing learning environment

WHAT WE OFFER...

SUBJECTS

Mathematics

Physics

Chemistry

Biology

GRADES

VII

VIII

IX

X

BOARDS

Our methodology is concept based.

Worksheets are customised.

Personalized help.

Curriculum suitable for all recognized boards.

HOW TO PROCEED...

We organize online seminars for interested people on zoom.

Please e-mail with your specific requirements.

Avail a free trial session.

OUR OTHER ENDEAVOURS...

- Teacher Training in various methodologies, teaching and learning tools, planners, etc.
- Creating theme based classrooms and lessons for schools
- Skill-based Entrepreneurship Programme for High School Students
- Content and Resource Development
- Local Activity based workshops for children
- Our NGO Children's Science Centre is involved in spreading science awareness to the interiors of our country for over 20 years.

ABOUT US

Neelam Samdani

B.Sc., B.Ed., M.A. (Education)

OUR PHILOSOPHY

Education should be related to real life – it should help one evolve, become a better human being and use the skills acquired to lead a better, more fulfilling life. Classroom learning should allow seamless transition to practical application. Learning should be holistic, meaningful and enjoyable , but above everything else, students should love to learn. It is our job as educators and facilitators to create that curiosity, awe and drive for students to strive towards becoming better human beings.
